

It is apparent that the " $\mu$ " symbols should be present to be consistent with the rest of the specification.

The " $\mu$ " symbols were present in the same context in parent specification, U.S. Patent Application Serial No. 09/418,177, filed October 13, 1999, and were omitted in the above application upon filing of the present continuation case. The omission occurred as a result of the printer not printing symbols present in the computer text.

Entry of the above amendments are courteously requested.

Respectfully submitted,

Michael L. Dunn  
Attorney for Applicant(s)
